VAIRKKO SOLUTION OVERVIEW

Certifications

Manage credentials, monitor expirations, and keep your team ready—all in one place.

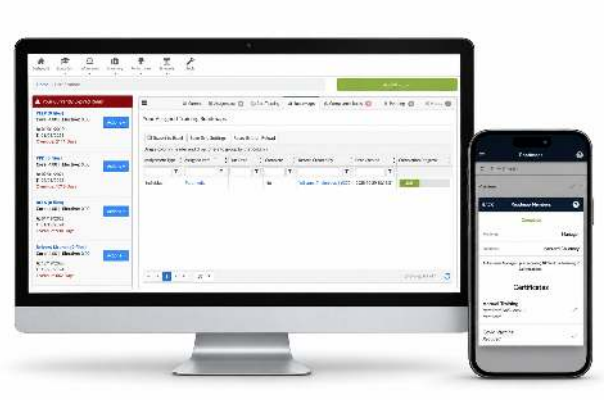

Main capabilities

Certification Tracking	Track unlimited custom certifications • Staff self-service document uploads • Admin review and approval • Create custom certificates • Connect with scheduling and education
Certification Roadmaps	Guide employees through the training and certifications required for their role, with clear progress tracking and reporting
Compliance Rules	Set certification requirements • Track compliance by individual or group • Report on expired and missing certifications by rule in real time • Assign requirements with completion deadlines • Group rules into collections for roles, departments, or employee groups
Training Hours	Track employee training hours • Report on progress toward education requirements • Automatically issue or renew certifications when required training hours are completed

Representative workflow: how certification tracking works

1. Employee	2. Admin	3. VAIRKKO
Upload a credential	Review and approve	Track the credential and expiration date

Works with your other VAIRKKO modules

Scheduling — Use required credentials to determine who qualifies for an open shift.
